About TVET

What is TVET?
(TAFE NSW delivered Vocational Education & Training)

The HSC allows students to undertake study in a variety of vocational areas that provide work-related skills and knowledge. These VET courses count as units of study towards the HSC and many can also be used in the calculation of their Australian Tertiary Admissions Ranking (ATAR). Senior high school students attend a TAFE NSW college to undertake a course that is included as part of their HSC pattern of study.
What are the advantages of undertaking a TVET course?

The TVET option provides an alternative choice for those students who desire to:

- experience an adult learning environment
- access well-equipped classrooms, workshops, computer laboratories, and facilities that meet industry standards
- be taught by industry-trained and experienced specialists
- select from a wide range of courses

TVET courses (based on TAFE NSW mainstream courses) will provide students with advanced standing and credit towards TAFE NSW mainstream courses. The majority of TVET courses also offer ‘continuing student status’. This allows students, to be given priority entry into further courses in their chosen study area, provided they enrol in the higher course within a two-year period of successfully completing their TVET studies.

TVET courses:

- have been developed or endorsed by the Board of Studies Teaching and Education Standards NSW (BOSTES)
- provide credit towards an AQF (Australian Qualifications Framework) qualification which is nationally-recognised
- count as units of study on the Year 11 Record of Achievement or the Year 12 HSC
- may contribute to the ATAR (depending on course selected)
- assist you in acquiring new skills and capabilities
- are appropriate for any ability level, including those who plan to proceed to university study
- are taught by teachers who have vast industry experience and links
- provide all equipment, materials, protective clothing and texts at no cost to students
- provide articulation into traineeships or apprenticeships
- provide maximum advanced standing into a TAFE NSW Certificate course after leaving school

TVET NSW is an adult learning environment. This means that you must behave like an adult and take responsibility for your own actions whilst you are attending TAFE NSW.

Attendance at TAFE NSW

TVET courses are generally offered at TAFE for four hours, one afternoon per week over one or two years. There are, however, other variations of course delivery - see ‘Types of TVET courses available’.

What costs are involved?

Students from Government schools are supported by funds from the NSW Department of Education - no additional cost to students will be incurred.

Students from non-Government schools will need to discuss possible costs with their school. It is the decision of the non-government school or the system authority whether costs will be met out of school or authority funds, or whether individual students will have to cover all or part of the TVET course costs.

All students are required to pay for their own travel costs to and from TVET courses. Mandatory equipment, safety gear and textbooks will be provided by TAFE for all students.

All students are required to pay for their own travel costs to and from TVET courses. Mandatory equipment, safety gear and textbooks will be provided by TAFE for all students.
Students with a disability

Careful consideration must be given to the courses selected by students with a disability. The chosen course must be assessed as the most appropriate course for the student and one that will provide successful vocational outcomes, together with the opportunity of further education and employment.

Students with a disability can apply for TVET courses listed in this booklet. There are a small number of courses that are offered specifically for students with a disability. These courses are adapted to meet the needs of students and include additional student support as required. These are known as ‘discrete’ courses and are available in the following areas:

- Construction
- Beauty Therapy
- Retail
- Transport & Logistics

Students with a disability will be interviewed by a school representative to assist with the planning and application process. An additional ‘Student’s Needs’ form will also need to be completed to assist TAFE staff with determining student support needs.

School-based Apprenticeships and Traineeships (SBATs)

In addition to the usual TVET course program, school-based apprenticeships (SBA) and school-based traineeships (SBT) are also available.

A school-based apprenticeship or traineeship combines paid work with TAFE NSW training and school. The SBA option is equivalent to the first year of a full-time apprenticeship, whilst an SBT will provide a certificate of proficiency in the traineeship area – a great start for students’ post-school career options!

Both of these options allow students to obtain valuable work skills and experience whilst undertaking paid part-time work as part of their HSC study.

More detailed information can be found at: [http://www.sbatinnsw.info/](http://www.sbatinnsw.info/)

See your Career Adviser for more detailed information and consult your Support Teacher Transition for further guidance.
TVET 120 hour
These courses run for three school terms (4 hours per week) and give students the opportunity to try out a vocational area that they may wish to pursue as a post-school career option. Students undertaking a 120 hour TVET course will receive a TAFE NSW Transcript of Academic Record, which will list the units of competency that they have studied. These courses are open to both Year 11 and Year 12 students and give 2 units of HSC credit.

TVET 240 hour
These courses run for seven school terms (4 hours per week) - commencing in Year 11 and continuing into Year 12. Students receive a solid grounding in the vocational area that can assist with making informed decisions about future study at either TAFE NSW or university, or can lead to direct employment after finishing school. Students undertaking a 240 hour TVET course will receive either a TAFE NSW Transcript of Academic Record, or in some instances a Certificate II or III national qualification. These courses are open to Year 11 students only and give 2 units of HSC credit per year.

TVET 300 hour
These courses run for seven school terms (4.5-5 hours per week) - commencing in Year 11 and continuing into Year 12. It is highly likely that there will also be a one-week block of additional work and some on-line activities to complete. Students undertaking these course will receive 5 units of HSC credit over the two years and will receive a TAFE transcript of Academic Record and a Certificate III national qualification.

TVET 360 hour
These courses run for seven school terms (4-6 hours per week) - commencing in Year 11 and continuing into Year 12. There are only a limited number of 360 hour TVET courses and some will be School-based Apprenticeship or Traineeship courses (SBAT). There will also be two or three block sessions of delivery over the two years of the course. Delivery for some SBAT students may require the student to attend one full day per week with a first year apprentice TAFE NSW mainstream group. Students undertaking a 360 hour TVET course will receive a total of 6 units of HSC credit over the two years and will receive a TAFE NSW Transcript of Academic Record, or in some instances a Certificate II or Certificate III national qualification.

TVET 180 hour
These courses run for three school terms (4.5-5 hours per week) and give students the opportunity to try out a vocational area that they may wish to pursue as a post-school career option. Students undertaking a 180 hour TVET course will receive either a TAFE NSW Certificate II qualification or a TAFE NSW Transcript of Academic Record. These courses are open to both Year 11 and Year 12 students and give 3 units of HSC credit.

TVET 240 hour
These courses run for seven school terms (4 hours per week) - commencing in Year 11 and continuing into Year 12. Students undertaking a 360 hour TVET course will receive a total of 6 units of HSC credit over the two years and will receive a TAFE NSW Transcript of Academic Record, or in some instances a Certificate II or Certificate III national qualification.

TVET SPY
These are 240 hour TVET courses delivered in three school terms (7.5 hours per week) - designed as ‘fast track’ options to the standard 240 hour courses. Students undertaking a TVET SPY course will attend TAFE NSW a full day each, plus a full block week in the TAFE NSW non-teaching week in June and in Term 3. Students will receive 4 units of HSC credit in the one year. They will achieve a TAFE NSW Transcript of Academic Record or in some instances a Certificate II national qualification. These courses are open to both Year 11 and Year 12 students.
Students who undertake a Framework course offered as a SPY option will be eligible to sit the optional BOSTES HSC exam in that year. Students will also need to complete 70 hours of work placement during the year to meet BOSTES requirements.

All course information including TVET forms can be downloaded from the following website: www.swsi.edu.au/tvet
Students are advised to speak to their Career Adviser, school TVET Coordinator or Year Adviser to select a course that best meets their educational and vocational needs.

Alternatively, students and their parents are welcome to contact the SWSi TVET Unit for further information on any course. If you have any questions please visit the SWSi TVET website or telephone our unit directly.

www.swsi.edu.au/TVET
9825 7484 or 9825 7244

Once a suitable course has been chosen, students will need to complete a ‘2017 TVET Expression of Interest Form’ and submit to school for on-forwarding to TAFE SWSi. These forms can be obtained from your school or downloaded from our website and must be signed by the student, parent and school representative prior to submission.

First round applications close Monday 5th September 2016.
Animal Studies

Board endorsed
Cert II in Animal Studies (Statement of Attainment)

Animal care and service workers train, feed, water, groom, bath and exercise animals and clean, disinfect and repair cages.

Students who undertake this course will be provided with a good insight into the wider animal care industry and gain skills necessary to care for animals in work places such as kennels, catteries, pounds, welfare centres and wildlife refuges.

Students will learn to:
- Feed and water animals
- Assist in health care of animals
- Complete animal care hygiene routines
- …and much more

Career Pathways

Animal Studies (Extension)

Board endorsed
Cert II in Animal Studies

This course is for students who completed the 120 hr Animal Studies TVET course in 2016. Students will further their skills and knowledge in the animal care industry and allow for completion of the full qualification. This course will give you a head start to further study at TAFE NSW and possibly entry-level employment as an animal attendant or carer.

Students will learn to:
- Provide basic care for animals
- Provide basic care for dogs
- Provide basic care for mammals
- …and much more

Career Pathways
Student profile: Clinten Fernando & Justin Varasuntara

Clinten and Justin started their journey into the field of automotive mechanics as school students when they commenced their School-based Traineeships with Peter Warren Honda in Warwick Farm as part of their Higher School Certificate. Clinten was in Year 11 at James Busby High School when he began in 2010 and has now completed his apprenticeship and is a qualified Service Technician. Justin followed a few years later from Bonnyrigg High School and is now in the final stages of his apprenticeship.

The School-based Apprenticeship/Traineeship program certainly gave these two young men a great advantage and a direct pathway to employment post-school.
Automotive (Vehicle Painting)

BOSTES Course – Automotive (Board Developed)
Cert II in Automotive Vocational Preparation

A Spray Painter or Vehicle Painter removes rough spots on vehicle panels, sands surfaces using hand or power tools, colour matches and mixes paint, applies primer and finishing coats and polishes and waxes the finished paint work to restore a vehicle’s body back to its original condition.

This course will provide students with the basic skills required by the panel beating/automotive body repair industry.

Students will learn to:
• Use and maintain automotive tools and equipment
• Carry out masking procedures
• Prepare vehicle components for paint repair

...and much more

Aviation (Flight Attendant)

BOSTES Course – Aviation (Flight Operations) (Board Endorsed)
Cert II in Aviation (Flight Operations - Cargo Services) (Statement of Attainment)

This course is for students interested in entry level work in the aviation industry or a pathway to a career in flight operation such as cargo service operator or cabin crew.

This course will provide students with the basic knowledge, skills and values that international and domestic airlines seek when recruiting suitable candidates.

Students will learn to:
• Communication and customer service
• Safety management and teamwork
• Roles of cabin crew and cargo service operators in the aviation industry

...and much more

Aaron commenced a TVET course in construction carpentry in 2013 whilst in Year 10 at Picton High School with a dream of working in the Construction industry. Aaron paired his TVET studies with a school-delivered course in Furniture Making to expand his knowledge and skills in all areas of the industry.

Since leaving school Aaron has continued to follow his dreams and has moved into an apprenticeship with Wisk Construction where he continues to fuel his passion to one day run his own business.

"Undertaking the TVET course introduced me to the TAFE environment and enabled me to see the possibilities available. I was lucky enough to be awarded 2014 Vocational School Student of the Year in the TAFE SWSi Student Achievement Awards, an accomplishment that I am very proud of."
Do you have a flair for creativity and enjoy working with others to create eye-catching designs? Then you may be interested in a career in graphic design!

This course is for people interested in learning the basic principles and fundamental skills in design.

Students will learn to:
- Explore and apply the creative design process to 2D and 3D forms
- Explore the use of colour
- Produce drawings to communicate ideas...

...and much more

FUTURE PATHWAYS
Successful completion of this course will give students advanced standing into Certificate II Traineeship or Certificate III Apprenticeship in the Electrotechnology industry ie; electronics, electrical trade or refrigeration & air conditioning.

Student profile: Jaykob Fulcher

Jaykob started his journey as a TVET student at Granville College in 2013 where he undertook a 120 hr Electrotechnology (Career Start) course as part of his HSC studies whilst at St Gregory’s College.

During the course Jaykob was exposed to knowledge of the industry and was able to see a future for himself in this field.

After finishing school, and receiving good grades in his TVET course, he applied for an apprenticeship with NECA Group Training and was offered an apprenticeship and placed with ARA Electrical, where he is now a 3rd Year apprentice.

‘The TVET course gave me a real insight into the industry and resulted in me receiving 6 months credit towards my trade studies. This was a great advantage.’
BOSTES Course – Fashion Design and Technology (Board Endorsed)
Cert II in Applied Fashion Design and Technology (Statement of Attainment)

Students who undertake this course will acquire creative and practical skills and knowledge into the Fashion Industry. Students will gain the skills and knowledge to develop cutting, machining and assembly, understanding workshop and sewing machine preparation and operations.

Students will learn to:
- Identify textile fibres and fabrics
- Produce a simple garment
- Understand the work practices of the textile clothing and footwear industry
...and much more

---

**Career Pathways**

Student profile: Andrea Jazbec, Katalina Matakaiongo and Michelle Paragalli

Nursing was always a passion for these three young ladies from South Western Sydney when they embarked on their first step towards training in the medical field as Year 11 school students.

Andrea Jazbec, Katalina Matakaiongo and Michelle Paragalli came from different schools and met at Wetherill Park college on the first day of their TVET course in 2014. Since that time they have all gone on to continue their studies after leaving school in the Diploma of Nursing (EN) course at Wetherill Park College.

The girls each have different plans for the future in the areas of Pediatrics, Midwifery and general nursing, but the one thing they do have in common is their desire to help others and their TVET Human Services course was certainly the right choice for each of them.
Information &
Digital Technology

Would you like a career in the Information Technology industry as a computer/software/network/web support officer, ICT specialist in web development, network communications software support or systems administration?

This course provides students with the skills and knowledge to be competent in the Introductory ICT ‘technical’ functions.

Students will learn to:
• Support Information Technology activities in the workplace
• Achieve a degree of self-sufficiency as an ICT ‘user’
• Care for computer hardware
...and much more

**FUTURE PATHWAYS**

Upon commencement of a full-time Apprenticeship, students can return to complete their Certificate III trade qualification. Students can then undertake further training in Certificate IV in Plumbing and Services.
Jordan undertook a TVET course in primary industries (horticulture) whilst in Years 11 & 12 at Robert Townson High School and has never looked back. ‘At first the course choice was just to investigate a possibility of a career in the industry’ and it didn’t take very long for him to know that he had found his calling! In November of 2015, after finishing his HSC, Jordan applied for and received an apprenticeship with Dreamscapes Landscaping Services, where he is now employed and continuing his training in Certificate III in Landscape Construction at Padstow College. ‘The TVET course was certainly a stepping stone for me. I enjoyed the course and the comradery of the other students immensely and was certain that the horticulture landscaping industry was where I wanted to be. I would definitely recommend doing a TVET course to any school student as a way of making an informed decision about a career pathway.'
Fitness instructors work in local leisure centres as well as in the growing number of private health clubs throughout the country. This course will provide a pathway to further training in one of the specialisation instructor courses (gym, aqua & group fitness).

Students will learn to:
- Provide fitness orientation and health screening
- Undertake client health assessment
- Apply anatomy and physiology principles in a fitness context
...and much more
