It is my great pleasure to welcome you to the 20th TAFE NSW - South Western Sydney Institute (TAFE SWSi) Student Achievement Awards.
It is my great pleasure to welcome you to the 20th annual TAFE NSW - South Western Sydney Institute (TAFE SWSi) Student Achievement Awards.

This is the Institute's premier event of the year, celebrating achievement and excellence in vocational education and training for our students.

The awards recognise our students’ outstanding achievements across a diverse range of learning areas. The award winners have excelled, not only in their academic program, but also in their commitment to developing their skills and knowledge.

In celebrating these awards, we also recognise the vitally important role that employers, family and friends play in assisting our students to achieve great success. I would like to thank the teachers, support staff and all those who have helped contribute to the excellent outcomes we are celebrating tonight.

The generosity of our sponsors demonstrates the high regard business and industry have for TAFE NSW graduates and the contribution they make as high performing employees. I’d like to personally take this opportunity to thank all our sponsors for their support.

The achievements of our graduates and the professionalism and skill of our staff have consolidated TAFE SWSi’s reputation as a leading provider of vocational education and training in Australia and internationally.

As the 2013 winners of the Australian and NSW Large Training Provider of the Year awards, we are also proud to be recognised for our responsiveness to industry needs, our quality delivery, our customer service, as well as our commitment to flexibility and accessibility.

On behalf of TAFE SWSi, I would like to congratulate the recipients of the TAFE NSW State Medal, the TAFE NSW Sponsored Awards, and Institute Student Achievement Awards as well as our WorldSkills competitors. I would also like to acknowledge the high standards achieved by all our students and wish them every success in the future. I am sure all our students here tonight will be proud ambassadors for TAFE SWSi as they progress through their careers.
Our State Medal winner is a student who, through hard work, enthusiasm and sheer determination, has achieved the single highest honour awarded to students by TAFE NSW.
When I migrated to Australia I was already in my forties and had a 5 year gap from my previous work experience. The course I chose gave me the chance to train in laboratory techniques and adapt to a new work environment. Winning an award was very unexpected and such a great honour. Without the help of my TAFE teachers I could never have achieved such a result.

When I migrated to Australia I was already in my forties and had a 5 year gap from my previous work experience. The course I chose gave me the chance to train in laboratory techniques and adapt to a new work environment.

In addition, my teachers greatly helped me when I found it difficult to learn and also gave me courage when I lost my self-confidence. My final career goal is to get a job that I enjoy doing and to belong to Australian society.
TAFE NSW SPONSORED AWARDS

TAFE NSW Sponsored Awards are donated by a wide range of companies and private organisations and recognise the achievements of our most exceptional students. We would like to take this opportunity to thank all TAFE NSW award sponsors for their valuable contribution.
I’ve been lucky enough to have had great teachers at TAFE and also to have been supported by a great team at Stone Mason & Artist Pty Ltd. They not only developed my skills but continually challenged me to improve through further training.

I’m honoured to be receiving the Construction, Forestry, Mining & Energy Union Award. I’ve been lucky enough to have had great teachers at TAFE and also to have been supported by a great team at Stone Mason & Artist Pty Ltd. They not only developed my skills but continually challenged me to improve through further training. In the future I would like to continue studying abroad in Europe to learn from the master stonemasons.
CAMERON TAYLOR
Construction Forestry Mining & Energy Union
Certificate III in Glass and Glazing
Lidcombe

I feel very happy and privileged to receive this award. My TAFE course has definitely helped me acquire new skills and to further compliment the skills I already possessed. My goal is to continue developing my abilities and hopefully secure a senior management role within my company in the future. I would like to take this opportunity to sincerely thank all my teachers and my employer, Sydney Glass, for all their help.

MAHBUB BHUIYAN
Industry Capability Network (NSW) Ltd
Certificate IV in Purchasing
Granville

The Student Achievement Awards is an excellent initiative by TAFE. They recognise the hard work and success of the student and also help to build confidence to take on a leadership role. My course was very practical and oriented towards industry requirements with teachers having excellent academic and industry experience. Classroom discussion and assignments focused on workplace issues and solutions which helped me to address and achieve my goals. In the future I would like to take on a supply chain management role.
I am absolutely over the moon to win an award. I made a 100% commitment to try my hardest and it has paid off. My family were great supporters and made many sacrifices to help me achieve my best. My TAFE teachers were also very supportive and at all times were thorough in their teachings and approachable. They were able to answer any questions I had and if they didn’t know the answer on the spot, would go and research the answer and get back to me. My goal for the future is to become a very thorough mechanic and to be a valuable member of a team.
Winning an award is great. Early in my apprenticeship, doubts and questions were raised as to whether I was capable enough to complete my trade but I think it’s fair to say that this award shows I’m more than capable. Persistence and patience certainly paid off somewhere down the line. My career goal at present is undecided but in my opinion, everybody is always chasing the top dollar, sometimes at their own expense. I think a balance between happiness and a well-paid job would be awesome.

I am both excited and shocked to have won this award and feel like all my hard work has paid off. Throughout my course all my teachers were extremely knowledgeable and put the information across in such a way that it was easy to understand and absorb. They taught me all the basics and then how to expand on this and put it into practice at work. My goal is to one day own my own business.
It's an honour and a privilege to be receiving the PPG Industries Award for 2014. I competed in the WorldSkills competition against students from other colleges in NSW and also in the NSW colour matching competition in which I came second. My teachers have always been extremely supportive and helpful with any questions I've had along the way and I sincerely thank them for their encouragement and inspiration.

At first I was completely shocked and couldn't believe I had actually won. After the initial surprise I was very proud of myself as I had put in 110% effort and tried my absolute best in all areas of the course so am extremely pleased that my hard work has not gone unnoticed. My teachers were very professional, knowledgeable and supportive in all subjects and easily approached when I had problems or issues with class work. My goal is to become the best heavy diesel mechanic I can be and to pass on my knowledge in the future.
My TAFE teachers were always there to help me during my course. They provided me with all the resources to help me understand and gain the knowledge I need to work in an Australian laboratory.

JIN HO PARK
VWR International Pty Ltd
Diploma of Laboratory Technology (Chemical and Forensic Testing)
Granville

I am very grateful to be receiving the VWR International Pty Ltd Award for 2014 and would like to sincerely thank VWR International for their sponsorship. My TAFE teachers were always there to help during my course. They provided me with all the resources to help me understand and gain the knowledge I need to work in an Australian laboratory. They also encouraged me to grow in self-confidence and develop the skills I required for my new career. I’d like to take this opportunity to sincerely thank my teachers who made winning this award possible.
WorldSkills aims to develop and nurture the skills of Australia's youth. Its purposes is to promote and build a skills culture by inspiring young people, celebrating skills excellence and providing students with an opportunity to showcase their trade and skill talent.

Our Student Achievement Award winners are being recognised for outstanding achievement in their area of study, contribution to college life and their community involvement.
LACHLAN BATE
Trainee of the Year
Diploma of Laboratory Technology
(Chemical and Forensic Testing)
Granville

I feel extremely privileged to receive this award. It is a great reward and tool by TAFE SWSi to encourage people in their studies. The professionalism, flexibility and personal approach shown by the TAFE SWSi teachers and system have allowed me to customise my learning to suit my specific ‘on the job’ needs. My Diploma of Laboratory Technology has enhanced the skills and technical knowledge I bring to both my job and my volunteer position as a brigadesman with the Mines Rescue Service.

JEMMA de GIER
Apprentice of the Year
Certificate III in Meat Processing (Retail Butcher)
Granville

I was extremely honoured and humbled to receive a nomination. Knowing the teaching staff chose me and think I am deserving of this award is very satisfying. The TAFE SWSi teachers taught me all aspects of my trade, not just what I would learn at work, and gave me the encouragement and confidence to become an outstanding tradesperson. I would like to get involved in mentoring female apprentices through their apprenticeship years.
AARON JORDAN
Vocational School Student of the Year
Certificate II in Construction Pathway
Miller

Winning something like this gives me the confidence to achieve whatever I put my mind to. I’m proud and honoured as I’m sure all of the nominees would have been worthy winners. My teachers are great role models, giving us the skills to achieve our goals. My current career goal is to get a job in carpentry and eventually start my own business.

JESSICA GRIMA
School-Based Apprentice/Trainee of the Year
Certificate II in Business Services
Campbelltown

I am very proud to be receiving this prestigious award. It is a true honour, considering that I have only been doing my traineeship for just over a year. By doing a Certificate II in Business, I am able to gain access to information that will help me with the university degree in Business Management I would like to study once I finish school.
SAMANTHA MANCUSO
Aboriginal and Torres Strait Islander
Student of the Year
Certificate III
in Business Administration
Liverpool

I was so excited and happy to find out that all my hard work was being recognised. My teachers at TAFE were excellent and gave me lots of assistance and support throughout my course. They also greatly assisted me by encouraging me to further my education at university and helping me in applying. My current goals are to complete the Bachelor of Education that I started in February, and to become a primary school teacher.

ENRICO AVONA
International Student of the Year
Diploma of Laboratory Technology
(Chemical and Forensic Testing)
Granville

My experience at TAFE has been both a challenging and rewarding one. The course I chose corresponds directly to my career goals, rendering my studies at TAFE a clear stepping stone to achieve my goal of being a pharmacist and developing new medicines for international organisations. For all my hard work and effort to be acknowledged by receiving an award, makes me feel very proud. The care and attention given to me by my teachers were an indispensable part of my studies. Their continuous support, in addition to the structured yet approachable classroom environment, provided the building blocks for my successful time at TAFE.
YONGXIN (CINDY) FENG
Business and Finance Award
Certificate III
in Accounts Administration
Granville

I was very excited when told that I was the recipient of the 2014 Business and Finance Award. I feel privileged and happy, knowing that my hard work has paid off. I have always had an interest in this area and fell in love with accounting when I started the course. It gave me a taste of what it is like to be involved in the finance aspect of a business. This was very beneficial as it helped me to set a career goal - I hope to become a member of either CPA Australia or the Institute of Chartered Accountants and open my own accounting firm in the future.

AMBA GROENEVELD
Building and Construction Award
Certificate III
in Stonemasonry
Miller

I was surprised when I found out that I had won, especially considering the talents of my classmates! It’s a confidence booster and a reward for all of my hard work. The course, with the help of my supportive teachers, helped me broaden my range of skills and let me see that there are many different career opportunities in the trade. My career goals are to start my own business and to continue to enhance my skills.
I feel very honoured and humbled to be receiving such a prestigious award. I certainly couldn’t have achieved the results I did without the support of not only my great teachers, but also my fellow students, work colleagues and organisations I’ve had the privilege to work with along the way. Studying at TAFE has allowed me to gain two diplomas in the field of Community Services which I am extremely passionate about. TAFE, and the teachers I had, not only helped me in my studies but also gave me the opportunity for exposure to the community sector which was an important component of my course, and greatly improved my self-confidence and personal skills.

I’m actually somewhat ecstatic to have won a Student Achievement Award. I believe that I worked quite hard throughout the three courses I completed at TAFE. The teachers provided me with the support and information I needed to complete my courses and achieve great results. They guided me in the right direction many times when I was unsure, and they provided an insight into my chosen industry, IT. I have realised that IT is an ever-changing broad field that has so many opportunities. They encouraged me to participate in the Cisco NetRiders competition and allowed me to continue to study Cisco courses that were not included in the Certificate IV course.
NICHOLAS MARSIC
Manufacturing and Transport Award
Certificate III in Vehicle Autobody (Vehicle Painting)
Campbelltown

I was excited to be nominated for this award and am grateful to be receiving it. I've put in a lot of work over the past year and am proud to have something to show for it. This award shows any future employers that I have both the ability and dedication to complete any tasks that are given to me. The teachers passed down their first-hand experiences and taught me all their skills and knowledge relating to the automotive industry. One day I hope to use these skills to run my own business, have apprentices working for me and teach them the skills I learnt at TAFE.

BENJAMIN JONES
Foundation Skills Award
Statement of Attainment
HSC Studies
Granville

After completing my HSC at TAFE, this feels like a vindication for everybody who told me if I worked hard and kept at it, I'd do well. I consider the Achievement Award as a tangible symbol of all the qualities TAFE has imbued me with; success, resilience, perseverance and determination. I benefited enormously from both the expertise and passion of my teachers. I’m now studying medical science at the University of New South Wales and have a great interest in both research and medical practice. I hope to specialise in either psychiatry, neurology or nuclear medicine.
A night like this cannot be undertaken without substantial support. Thank you to all our sponsors here tonight for your invaluable contributions.
Student Associations are voluntary, non-political, not-for-profit service organisations, dedicated to making campus life better for all students and staff by providing quality facilities, services and activities.

Working closely with Institute management, the Student Associations provide a broad range of services, facilities, products, publications and activities that support learning and teaching. They are responsive to the needs of our students and help to create an environment where there is a healthy balance between study and leisure.

Student Associations provide a channel for communication between students and TAFE SWSi. A Board of Management is elected from the membership of the Student Associations to recommend the expenditure of student funds in an appropriate and equitable manner.

The Board provides an invaluable mechanism for student consultation and gives members the opportunity to enhance practical skills and make a tangible contribution to the college community.

For over a decade Optus and TAFE SWSi’s affiliation in vocational training has been recognised as world’s best practice in the Information, Communication & Technology (ICT) sector.

Together, Optus and TAFE SWSi continue to deliver industry relevant training for school leavers in the highly successful Optus Engineering Cadetship Program. Through this program, which was developed in conjunction with Lidcombe College, cadets are immersed in the fields of Telecommunications, Network Engineering and Photonics. Our partnership with TAFE SWSi has also extended to the sharing of resources, facilities and knowledge which has directly contributed to the development of the Engineering discipline and the Communication Industry.

Optus is proud to be the Platinum Sponsor of the Student Achievement Awards and is privileged to work alongside the dedicated teaching staff at TAFE SWSi who share the same commitment to supporting the development of the next generation of technology leaders in Australia. Optus congratulates the 2014 award winners for their outstanding achievements and wishes them every success for the future.
Woodland Metal Spinning was established in 1937 and is proudly 100% Australian owned and operated by the Crawford family. Located south west of Sydney in a modern 2000m² factory, Woodland Metal Spinning holds its place in the industry through our outstanding people - design engineers, toolmakers, fitter machinists, sheet metal workers, metal spinners and welders.

We were the first to introduce automatic metal spinning machines to Australia in 1966. We provide wide and diverse capabilities including laser cutting, sheet metal punching and folding, metal spinning and pressing, toolmaking, welding and assembly.

We have invested in CNC technology with the latest world best practice Leifeld of Germany metal spinning machines and Mazak laser cutter. With this technology already adding a new dimension in the supply of a broader range of component parts, Woodland can offer more experience, capability, reliability and efficiency than other manufacturers.

Fuji Xerox Australia is part of a world leading enterprise for business process and document management services. Our technology, expertise and services enable our clients, from primary schools through to high schools, TAFE Institutes, universities and private colleges, to focus on their core business.

We are well recognised for our commitment to sustainability and this is supported by several awards from the United Nations and the Banksia Environmental Foundation.

We help our customers reduce the environmental burden of document processes and achieve their targets in energy management and print efficiency.
NECA Group Training is well recognised throughout our industry as being the leading supplier of apprentices to the electrical, communications and contracting industries.

Now operating for over 25 years, with branch offices in New South Wales, Queensland and the Australian Capital Territory, the company is recognised for the high percentage of apprentices who successfully complete all stages of their apprenticeship.

NECA Group Training employs over 130 apprentices per year and currently has 519 apprentices in training. The Company believes that its success is attributable to the quality of its apprentices, its staff and the service it gives to its host employers.

NECA Group Training is proud to offer its support to these awards and congratulates all of those apprentices who are finalists and winners of the 2014 Student Achievement Awards.

State Training Services, a division of the NSW Department of Education and Communities, funds, promotes and supports vocational education and training to develop the skills base for the State and to grow the NSW economy. State Training Services also provides expert advice and information to industry, employers, training providers, apprentices and trainees.

State Training Services also operates as a Commonwealth-funded Australian Apprenticeships Centre providing a fully integrated one-stop-shop for all apprenticeship and traineeship services and broader vocational education and training advice. The one-stop-shop service is designed to ensure industry, training organisations, employers and their employees have all the necessary support and advice to obtain the skills and qualifications their business needs.
The University of Western Sydney (UWS) is a large, research-led metropolitan university operating over multiple campuses in Greater Western Sydney. The University ‘brings knowledge to life’ in the education of students for employment, the application of research to contemporary problems, and mutually enriching partnerships with local schools, organisations, businesses and community groups.

UWS research is a major driver of new knowledge and innovation and ranks among the nation’s best. For our 42,000 students, UWS provides professionally relevant, flexible degrees which equip them with the practical skills and theoretical knowledge to become career-ready graduates.

Ausgrid has more than 100 years of experience in operating one of the largest electricity networks in Australia and has recruited over 1,100 apprentices since 2004. We currently have 300 apprentice line workers, cable jointers and electricians in training. Our apprentices are helping build and maintain a safe and reliable electricity network that delivers power to over 1.6 million homes and businesses across the Hunter, Central Coast and Sydney.
**COMFORT INN HUNTS LIVERPOOL**  
Silver Sponsor

*Where comfort and convenience comes first...*

We offer 3.5 star accommodation with some 4 star plus accommodation for those who require a bit of luxury. Our latest extensions are now finished and we offer serviced apartments designed specifically for the aging population with five apartments having full wheelchair access to complement our normal motel style rooms.

We are pleased to again be associated with the TAFE SWSi Achievement Awards especially as this is the 20th year that TAFE SWSi has recognised their best students. Congratulations to the students who have worked so hard in being recognised tonight.

**7NEWS**  
Silver Sponsor

7News is dedicated to delivering the most comprehensive coverage of the biggest local and international news stories, drawing on an extensive network of journalists and cameramen both at home and abroad.

Together with anchor Mark Ferguson – who this year celebrates three decades in broadcast journalism – the 7News team of presenters and reporters is unsurpassed in talent and experience.

When Channel Seven first presented news back in 1956, it produced just 2 hours a week and sometimes the pictures were weeks old by the time viewers saw them.

Today, our 7News base at Martin Place produces more than 40 hours of live TV a week, distributed Australia wide.
Only 17 kilometres from the Sydney CBD and 6 kilometres from Parramatta, the City of Auburn local government area is right at the heart of Sydney. The area has many attractions, including the world class sporting facilities and business centre of Sydney Olympic Park, the Auburn Botanic Gardens, Bicentennial Park and the Gallipoli Mosque.

Vibrant town centres are at the heart of the area's different suburbs. Home to colourful cafes and shops with food and items from all over the world, Auburn City is a unique fusion of cultures resulting from many different people living side by side with their different customs, languages and traditions.

With 53.2% of residents overseas-born and the highest percentage of new arrivals from refugee backgrounds per capita of any other local government area in NSW, Auburn City is exceptionally diverse. This diversity, in both cultural and socio-economic terms, contributes a great source of energy and creativity to the local community.
Campbelltown is celebrated for its unique combination of city opportunities amid a rural atmosphere. Home to more than 150,000 people, Campbelltown offers an idyllic lifestyle surrounded by the picturesque Scenic Hills and Georges River.

Our city has grown to become a significant regional centre with more than $4 billion generated annually from three major industrial areas, lively commercial centres and quality services.

Council will ensure Campbelltown continues to be known as a green city with a focus on maintaining its lifestyle, while furthering local industry and employment opportunities for our residents.

Campbelltown City Council is a proud sponsor of the 2014 Student Achievement Awards and congratulates its local finalists.

Bankstown City is a thriving centre.

We enjoy the services and facilities of a prosperous, growing city with lively neighbourhoods and a proud history. Our diverse population lives and works together in harmony.

Bankstown is a modern, active community with quality transport infrastructure, clean waterways, pristine bushland and great community spaces and parks.

Bankstown City Council believes in:

• Being fair, honest and transparent
• Engaging and consulting with our community
• Being creative and innovative
• Managing community assets responsibly
• Celebrating our cultural diversity and promoting social justice
• Treating our community with respect, courtesy, and fairness.
The Construction and Property Services Industry Skills Council (CPSISC) is the ISC responsible for the construction and property services industries.

We are an industry owned organisation that acts as a bridge between our industries, enterprises and the national VET system. CPSISC’s vision is to facilitate access to world class skills and workforce development for the construction and property services industries.

We articulate and advocate the training, skill and workforce development needs of our industries, and facilitate the delivery of training services through the development of strong partnerships and the provision of high quality research and products.

Quay Appointments is a 100% Australian owned company and is listed amongst Sydney's top agencies.

Formed in 1994 we specialise in the recruitment of permanent and temporary personnel. With a large client and equally strong candidate base our ability to provide superior recruitment services is evident in the repeat business we experience and the success we enjoy.

Quay Appointments is based upon a proven philosophy of providing a highly personalised recruitment service. This has enabled us to establish ourselves as a very effective recruitment agency that is customer focused. We enjoy a long-standing relationship with TAFE SWSi.
Revesby Workers’ Club is one of Sydney’s premier entertainment and lifestyle destinations.

Whether you’re after a casual beer at the bar, catching up with friends for a coffee, grabbing a fast and easy family dinner or celebrating a special occasion, Revesby Workers’ Club offers a range of bar and dining options perfect for any occasion.

Well known for its entertainment, the perfectly appointed lounge offers free live entertainment every weekend, while its Theatre regularly hosts high profile artists and shows.

Revesby Workers’ Club offers a variety of services to its Members and guests with an award-winning health and fitness centre, early childhood centre, hair salon, travel agent and function centre.

Teachers Health Fund proudly supporting the 2014 Student Achievement Awards.

Teachers Health Fund is private health insurance created exclusively for people in the education community and their families.

With more than 60 years of experience and covering over 250,000 lives nationwide, Teachers Health Fund is now the largest industry-based health fund in Australia.

Teachers Health Fund gives eligible members access to:

- A not-for-profit health fund
- Great value health insurance that’s on average 20% less than other funds^  
- A range of quality products and services
- Generous benefits
- An easy switching process

To find out more visit www.teachershealth.com.au or call us on 1300 728 188.

^Based on price comparison of Teachers Health Fund’s Top Hospital + Top Extras products with equivalent level of products from other health funds.

ASHLEE HODSON  
Master of Ceremonies

As the 2013 Australian Trainee of the Year, Ashlee is one of TAFE SWSi's great success stories. Ashlee completed her traineeship at Bankstown College in December 2012, and hasn’t looked back.

Starting out as a Trainee Records Officer at Bankstown City Council, Ashlee soon proved herself to be more than capable, finishing two formal TAFE qualifications, and almost completing another in the one year.

She moved into a more senior role, working as an IT Corporate Support Officer, and shone at the State Training Awards, winning the Southern Sydney, State and National Trainee of the Year titles.

EUGENIO CAMPISI  
Master of Ceremonies

Eugenio commenced studying a Certificate III in Meat Processing (Meat Retailing) with TAFE SWSi in 2010. Throughout his time he received several individual awards, including the TAFE SWSi Apprentice of the Year in 2012, a Highly Commended Award for the highly prized Institute Medal and Apprentice of the Year at the South Western Sydney Training Awards. Throughout his apprenticeship, he also had the opportunity to compete in many state-run competitions such as WorldSkills and the NSW Meat Retailing Apprentice of the Year.

Eugenio still maintains a very close bond with his TAFE teachers who he credits as playing a huge part in his on-going success in his chosen career.
